PROCUREMENT DIVISION WEEKLY REPORT FOR

PERIOD ENDING 31 AUGUST 1983

1. Progress Report of Tasks Assigned by the DCI/DDCI:

No tasks assigned during this reporting period.

2. Items or Events of Major Interest that have Occurred During the Preceding Week:

25X1 a. SAFE Project, Software Development: On 22 August 1983, a Firm Fixed Price (FFP) contract, in the total amount of \$225,000.00 was awarded to the Adesse Corporation for the development of software to enhance the VM Delta Data terminal so as to allow/provide for an IBM 3270 emulation capability in support of the SAFE Project. The total contract effort will be accomplished in two segments with the initial delivery to occur in eight months and final delivery four months thereafter. Should this development effort prove to be successful, the potential for usage of such software on other projects is significant. [REDACTED]

25X1 b. Contractual Provisions for Renewal: Automatic Data Processing & Engineering Branch (ADP&EB/PD/OL) has developed two new provisions/clauses for which the purpose of both is to ease the beginning of the fiscal year procurement build-up and administrative rush for executing renewal contracts to provide for uninterrupted services. One of the provisions, entitled "Availability of Fiscal Year Funding", provides for the immediate renewal of the current fiscal year contract on the condition that funds become available in the fiscal year for which the supplies and/or services are being contracted. The second clause, entitled "Conditions of Renewal", provides for immediate renewal at prior year rates where a new General Schedule has not yet been negotiated with the General Services Administration (GSA). [REDACTED]

25X1 [REDACTED]

c. Production & Services Contracts Branch (P&SCB) Request for Proposals (RFP) for AUGUST: Several request for competitive procurement were received by P&SCB/PD/OL. These RFPs were issued in August and are due between 16 and 21 September. The RFPs were issued on behalf of the Office of Communications (OC) and the Office of Imagery Analysis (OIA). The OC requirements are for generators and power related equipment (RFP 83A-197) and [REDACTED]. The OIA requirements are for modification of government-owned stereoscopes (RFP 83A-220) and for modified light tables for use with the stereoscopes (RFP 83A- 221 and RFP 83A-224). The estimated value of these RFPs is approximately \$2.2 million. However, only the two light table RFPs are expected to go before the Agency Contract Review Board (ACRB). The contracts are expected to be negotiated and awarded by 30 September. [REDACTED]

3. Significant Events Anticipated During the Coming Week:

None.
